

Summit Academy will be using Chromebooks as our computer of choice at the school. The platform provides many great learning applications, including interactive and shared learning experiences that are innovative and unique, this will allow our students to grow and learn with each other as well as the technology.

Chromebooks are available through many different retailers and manufacturers at a very reasonable cost. While we do not require each child to have their own Chromebook, it is recommended. See below for the minimum requirements.

Chromebook Specs

(minimum)

RAM	2 GB
Memory	16 GB Hard Drive
Processor	1.8 GHz
Screen Size	11.6"

Students should have:

- good, solid protective case
- protective bag *(many backpacks now have this as an option)*
- Antivirus should be installed and up to date
- Over the ear head phones – Grade P-3
- Ear buds or over ear headphones – Grade 4-9

****Chromebooks are to be brought to school fully charged***
